Genre: Adventure, Casual, RPG
Developer:
Arcane Raise
Publisher:

Release Date: 10 Mar, 2017

English

This is a Compile Heart-style cheat items pack, which lets you start at level 15 instead of 1 and probably skip all the grinding, not that I tried playing without it.

The game is less than 1 hour long without grinding and has no story. Instead of skipping the game for \$1, why not uninstall it?
